

Reagent Kits

Product name

- MALDI-TOF MS Control
- Sample Pretreatment Reagent
- Calibrator for use with AUTOF MS
- CHCA Matrix for use with AUTOF MS
- Positive Blood Cultures Pretreatment Reagent
- Filamentous Fungi Pretreatment Reagent

Instrument Features

Smart Capabilities

- Integrates sample scanning, gesture control, permissions, and audit tracking, enhancing user experience.
- Unique high-performance laser system for consistent ion excitation and extended laser lifespan.
- Facial recognition for secure, convenient login, protecting data integrity.
- Self-diagnostic function that safely shuts down high-voltage in case of faults, ensuring user safety.
- AIEF and TAA technology: improving the sensitivity and resolution of the instrument, realising small size but high performance.

Innovative Design

- Touch-screen control, delivering a smooth, app-like immersive experience.
- Single power cable for streamlined design with a modern, technological look.
- Inserted target holder and easy-to-use streaking pen enhance user experience.
- High integration for compact size, easy to install, and perfect for mobile or emergency use.
- Extensive database paired with a fast search algorithm; results are instantaneous.

Innovation · Manufacture · Integration · Service

Autobio Diagnostics Co., Ltd.

offers more than 600 in vitro diagnostic products including CLIA (microplate based CLIA and magnetic particle based CLIA), ELISA, POCT (Point of Care Test), Microbiology and Biochemistry. As an ISO9001 and EN ISO13485 manufacturer, Autobio supplies high quality products through its well established sales network and is renowned as a reliable partner.
